Grasim Industries Limited is the flagship company of Aditya Birla Group. It started as a textiles manufacturer in India in 1947. Today, it has evolved into a leading diversified player with leadership presence across many sectors. It is a leading global producer of Viscose, Diversified Chemicals, Linen Yarn and Fabrics producer in India.

The company recently has entered paints business under the brand name 'Birla Onus' and would be setting up six plants of manufacture at various locations.

Leveraging the Group synergies, Grasim has entered the building materials marketplace for building materials. Through Grasim Capital and Aditya Birla Renewables, it is also a diversified financial services player and a

natural and synthetic fibres for enhanced comfort and feel.

Starting production in 1954 at Grasim's Nagda facility, the business has grown steadily over seven decades. The Pulp & Fibre Business of Grasim derives its competitive edge from its integrated business model, with captive raw materials – dissolving grade wood pulp, caustic soda, carbon-disulphide, power generation and steam.

Birla Cellulose's product portfolio includes Livaeco™ by Birla Cellulose, Birla Modal™, Birla Excel™, Birla Viscose™ and Birla Spunshades™. Birla Cellulose fibres are of natural origin, moisture absorbent, have soft feel, and are completely biodegradable.

Viscose Filament Yarn

Grasim Industries Limited is the largest viscose filament yarn (VFY) manufacturer in India and the 3rd largest globally. The company is also the largest VFY exporter in India with exports to 45 countries.

VFY business became a part of Grasim Industries Limited on 1st July 2017, following the merger of Aditya Birla Nuvo Limited. Subsequently, Grasim acquired the rights to operate and manage the Century Rayon division of Century Textiles and Industries Limited (CTIL) from 1st February 2018. Since then, Grasim's VFY production capacity has increased to 48 KTPA.

Represented as the brand Raysil® (formerly known as RayOne), VFY is of 100% natural origin and its product portfolio includes 20 deniers to 1200 deniers of both bright and dope dyed viscose filament yarns. Its versatility, superior drape, fluidity and lustre make it a popular choice for manufacturing fabrics such as

Grasim's VFY is manufactured at its twin spinning units in Gujarat.

Chemicals

In 1972, Grasim's chemicals business was established as a separate company, the company's VSF unit. Today, it is one of India's leading companies in the chlor-alkali segment. Over the years, it has built a strong foothold in the industry and offered a wide range of derivatives to epoxy.

Chlor-alkali: In 2016, Grasim's merger with Aditya Birla Nuvo Limited catapulted the company's caustic soda capacity to 1.2 million tonnes per annum.

ADITYA BIRLA GROUP

The business uses cost-effective membrane cell technology and is largely self-sufficient in power. For gainful utilisation of chlorine, the business has portfolio of chlorine derivatives like Stable Bleaching Powder (SBP), Polyaluminium Chloride (PAC), Chlorosulphonic Acid (CSA), Chlorinated Paraffin Wax (CPW), Calcium Chloride (CaCl), Aluminium Chloride (AlCl) and Chloromethane (CMS).

Epoxy: The business' epoxy products range from basic products like liquid epoxy resins to value added products like formulated resins, reactive diluents and hardeners. The manufacturing complex at Vilayat houses a 123 KTPA capacity epoxy plant. Through expansion, Grasim plans to double the epoxy capacity to 246 KTPA by FY2024.

Textiles

Grasim ventured into the textiles industry in 1949 by setting up Jaya Shree Textiles at Rishra, West Bengal. Today, Jaya Shree Textiles is one of India's leading linen and wool manufacturers. It has four strategic business units (SBUs) i.e., linen spinning, linen fabric, wool combing and worsted spinning. Today, Jaya Shree Textiles sells its products in over 50 countries, spanning across six continents.

Jaya Shree Textiles has provided the evolving Indian fashion industry with an international edge. Finest flax is sourced from France, Belgium and other parts of Europe to make 100% pure linen. Cutting edge European technology is used to spin the fibres, weave and dye the which makes it unique and difficult to replicate. This superior technology also enables Jaya Shree Textiles to manufacture over 3000 different types of weaves, textures and blends. The company has significantly revolutionised the Indian textile market by popularising linen in India across a wide customer base with

Linen Club is the largest linen fabric brand design, for more than 70 years. Linen Club through both exclusive retail outlets and in the world.
